

Product Description

Cortex Expanding Foam Tape is manufactured using an open cell polyurethane foam heavily impregnated with acrylics creating flame retardant properties. Under high compression the product will create a weatherproof seal, under low compression the product is suitable for draught sealing. It is recommended for use in more extreme weather applications (tested to DIN 52453 Watertight Against Driving Rain) and is fully resistant to UV. The product is supplied in rolls, pre-compressed to approximately 85%.
